**BIG AUDIENCE
IS DISAPPOINTED**

**Speeches Much Looked For
Night Were Not De-
livered**

Disappointment was felt by many among the large audience which filled the galleries in the Legislature last evening that they did not have the opportunity, as was expected, of hear-

K Bacon Hillecks of Calgary speak. In anticipation of an interesting oratorical combat between two of the best speakers representing each side of the House the audience was one of the

the new Legislative buildings. The reason they were disappointed was inability of the youngest member of the House, the member for Alexandria.

In consequence the final bout in the

Nelson Hillecke, of Calgary North, will conclude the debate so far as the Opposition is concerned this afternoon and Mr. MacKay will terminate the debate for the Government.

The Opposition were not ready to go on with the debate on the Alton and Great Waterways bill, which was down for second reading, opposite to

The Premier, to accommodate the Opposition, said that he would be willing to postpone the moving of the second reading until tomorrow, but Mr. Michener, leader of the Opposition,

Premier Sifton pointed out that he had no special motive in desiring that the debate should come on the follow-

question there would be not much other business before the House. At least one member of the Opposition complained that the House had done

the debate, was postponed until Monday and business was delayed, it was at the wish of the Opposition. The Premier consented to postpone the debate till Monday.

Apart altogether from the able oratory of the member for Camrose, G. P. Smith, the subject matter of his speech was of the most practical kind.

of the money used on roads and bridge building in the province. In this connection he pointed out the urgent need of a system of co-operation regarding the better expenditure

rural municipalities whereby the work done by each will be co-ordinated into good through traffic roads instead of there existing good and bad patches as at present. His suggestion of

prove the work to be undertaken by the municipalities before they are allowed to borrow large sums of money for road work is deserving of careful

In order to secure that a more comprehensive plan of work shall be carried out in the municipalities than hitherto been seen, he urged the

The University Graduate.
The House enjoyed the cocksureness and audacity of the utterances of the recently-graduated member for Al-

university which has recently conferred a degree upon him, referring to the buildings on the south side of the river as "not a university, but a couple of houses."

DR. CHAS. LEONARD DIES A MARTYR TO SCIENCE OF X RAY

Philadelphia Physician Succumbs to Disease Caused by Exposure to Rays

FIRST HAND AND THEN ARM WAS AMPUTATED

Other Doctors Who Have Devoted Themselves to Development of Ray Have Died

Philadelphia, Sept. 24.—Dr. Charles L. Leonard, expert in X-ray work, died yesterday at Atlantic City, a martyr to the science to which he had devoted himself. From constant exposure to the rays he was stricken with a disease that baffled the best surgeons. Nine years ago the hand that guided the light became affected. Medical skill availed nothing and the hand was amputated. But the patient had gone further, and a few years ago it was found necessary to remove his entire arm. Then it was believed that the disease was cured. Dr. Leonard arranged to resume his practice, but before the wounds had healed the disease spread over his body.

At last he decided to go with his family to Atlantic City, in the hope that sea air would restore him, but soon he became bedfast.

Dr. Leonard's father, M. Hayden Leonard, is seriously ill at his home here, and now of his son's death it is feared will further increase the seriousness of his condition.

Harry Cox, of London, who did much to develop the X-ray in its early days, and who worked with Sir M. Crookes, died in 1905. He was afflicted by the same malady as Dr. Leonard. Although his hand and arm were amputated he died. Dr. Crookes, a well known English physicist, died in a similar manner, as did several other doctors in this country and Europe.

RIVAL STEAMERS IN EXCITING RACE TO SOO

Hamonic Retrieves Lost Laurels By Beating C.P.R. Flagship Assiniboia to Soo

Port Arthur, Ont., Sept. 24.—Because of a piece in the paper which they believed was inspired by officers of the Assiniboia and to the effect that the Assiniboia had beaten her on the trip across Superior, Sunday night, Engineer Wilson and officers of the Hamonic yesterday laid their plans to trim their long-time rival on the return trip down.

Things worked out as they expected. The Hamonic, the Northern Navigation Company's flagship, left here six and a half minutes behind the Assiniboia. Three hours later, she had overhauled her rival, and at the Soo this morning the boats were reported as arrived. Hamonic at 9:11 and Assiniboia at 9:30.

Numbers of the impending race spread about the city yesterday, and great crowds watched the two giants trim each other of Thunder bay with the black smoke belching from their funnels in thick clouds. The time made by both to the Soo was remarkably good.

C.P.R. SHIP AGROUND IN THE ST. LAWRENCE

Mont Temple in Fog Goes Off Course and Grounds Near Malabonnet—Is Reported to Be Taking Water and Is Badly Damaged.

Montreal, Sept. 24.—The steamer Mont Temple, commanded by Capt. J. H. Moore, and one of the best known vessels in the Canadian fleet, ran aground off Malabonnet this morning. Reports received state that she is badly damaged and is taking in water.

The vessel left her wharf at 5:20 this morning to head her voyage to London. The morning was foggy with smoke hanging over the river. A pilot was on board, and in the absence of Captain Walsh, the marine superintendent of the C.P.R., the vessel was piloted by Mr. Elliott, the assistant superintendent.

The vessel proceeded through the fog as far as the new dry dock. She got out of her course there.

The vessel is heavily laden with grain to London and general cargo to Antwerp. There were only six passengers on board, all third class.

BIG INCREASE IN UNION MEMBERSHIP

Washington, Sept. 23.—The executive council of the American Federation of Labor began its quarterly meeting here today. Secretary Morrison reported for the eleven months of the fiscal year ending June 30 that 31,240 new members had been added to the organization. This was a record for any one year.

The report for the eleven months of the fiscal year ending June 30, 1913, showed an increase of 31,240 members, compared with 24,000 for the same period of the preceding fiscal year.

MINISTER OF LABOR BEFORE UNION MEN WITHOUT HIS MASK

Trades and Labor Congress Decries Hon. T. W. Crothers For Attitude in Strike

SENATE CRITICIZED FOR REJECTING CERTAIN BILL

Crothers is Directly Charged With Employers Against Laboring Men

Ottawa, Sept. 24.—The minister of labor, Hon. T. W. Crothers, came in for a share of criticism at the hands of speakers before the Canadian Trades and Labor Congress today, the latter body openly accused of working in the interests of the employers as against those of the laboring men.

The failure of the Senate to pass the bill for the protection of the lower House along the lines of protection for employed girls and women in keeping them out of the clutches of the white slavers.

Dr. Shearer Leads Attack

The first attack was made in the morning session by the Rev. Dr. Shearer, of Toronto, secretary of the Social Service Council of Canada. He told the congress about the legislation the council had succeeded in passing through the lower chamber. This was, among other things, to provide for the raising of the age of consent to 18 years, and the making of all employers criminally responsible for the seduction of a girl in their employ. This had been killed in the Senate and the doctor was sharp in his criticism of their action.

The attack on the Minister of Labor was the result of an outline of the strike of the Columbia miners' strike, brought up by the morning session by W. Wilkinson, of Vancouver, presenting the American Federation of Labor. It came up in the afternoon in the shape of a resolution. At the conclusion of the reading of the resolution it was stated there was one point in connection with so important a matter that it was unfortunate the Minister of Labor was not present.

Crothers gave incorrect statement. Mr. Crothers, it was said, had made a trip to Vancouver Island during the strike and on the way back had made certain statements to the press which had been at variance with the facts.

R. A. Rice, of Winnipeg, reviewed Mr. Wilkinson's statements of the morning session, detailing how statements had been brought from Vancouver, England, by the Canadian National Ltd., through the agency of the Commercial Union Employment Bureau. He had heard in Winnipeg that there was something wrong with Vancouver Island, and he took the miners to the immigration office in his city, by Vancouver, could do nothing. He then advised the miners to come to Vancouver, where they would be taken care of by the United Mine Workers. Then the Hon. Mr. Crothers came out to face the situation. On his way back he had stopped in Winnipeg. Mr. Rice had seen him in his hotel and introduced by the Minister of Labor to some friends. "The minister who had told him of these rumors had located in them the sort of a statement, thereby causing them to become a charge on the community."

Rice Denounces Crothers

"That's exactly Mr. Rice," is the way of man you have for minister of labor who at first impressed the miners as being a fair-minded person in his dealing. But there we have him with the mask off, not content with the action of men who brought down miners to Canada, under false pretences, but concerned only with revealing the man who is making efforts to have the country kept as clean as possible of his work."

Mr. VerVill, M.P., Labor member in the House of Commons, interjected that it seemed a pity he was not kept informed with a state of affairs such as this. He had heard practically nothing about it. In future, he wished to be supplied with correct information as this, in order that he might make them known to the world from the floor of the House.

Four resolutions were dealt with during the course of the day, the remaining time being given to the discussion of parliamentary procedure.

Quebec Beer Non-Union

Montreal, Sept. 24.—Albert Kugler, of the United Brewery Workers, warned the delegates against the proposed union of Quebec brewers. None of it, he said, was made in union breweries. Everywhere else right and blue hours days were the rule, but in Quebec the men worked eleven hours and a half day's work to thirteen and a half dollars a week in their wages. Girls employed by the breweries here received from four and a half dollars minimum to a six dollars maximum.

W. H. Trotter, Western Canada organizer, reported a list of 34 local unions in Western Canada, of which 24 were affiliated with the congress and 14 were not.

RELIEF DAUGHTER WAS SHOT BY FOSTER BROTHER

Madison, Sept. 24.—The parents of Ella Frank, the 16-year-old girl who was found dead by neighbors late Saturday afternoon with a shot wound in her breast, believe she was accidentally killed by her 15-year-old foster brother, and that the boy had, in fit of terror, slain himself. He is now being made in the woods.

Permits Taken Out For \$65,000 Worth of Houses

Inspector's Office Had Busy Day Monday—1913 Building Record Promises to Keep Up With Pace Set During Past Years

On Monday exactly \$65,000 worth nearly all the permits were for blocks of building permits were taken out in and around the construction during Greater Edmonton. That means that for the coming and summer months on both sides of the river consider have been on the heavy order. On this side building is anticipated this year, total sum, \$15,000 represents the building activity on the south side of the river, while the remaining \$50,000 is for construction work on the north side. The largest permit issued for the construction of a business mansion, which calls for the erection of dwellings. Not one permit calls for the construction of a business mansion, which calls for the erection of dwellings. This is accounted for by the fact that in the early part of the year, amounting to \$25,000.

THE COST OF ADVERTISING

The unwise merchant often wonders how some rival can afford to spend so much more for advertising. He is sure that he could not—but he would have him in short order to "place" into publicity on the scale that the other fellow does.

The other fellow is not worrying about the cost of his advertising for the simple reason that he doesn't have to pay it. The competitor who cannot afford to advertise, really, in effect, pays the bill of the man who does.

He pays them in the loss of business caused by his failure to advertise. The business he ought to have—his "share" of the trade in his line—goes in large part to the competitor who does it. When he affords to advertise for it, the results on the trade drawn away from the limit advertiser, he leaves a portable surplus.

This is a fact which progressive merchants are proving all the time—it is ought to have some personal significance to the merchants who are willing to get rich before "rising" adequate advertising campaign.

ALBERTA AVENUE
FAST GROWING
PORTION OF CITY

The future of Alberta Avenue as a business street is assured from the fact that there are a great many business houses already located on it. Many others in course of construction. There are people doing business on the avenue today who had places on other adjacent streets, and they have found it to their advantage to locate on the avenue. The car livery house located adjacent to the avenue will give it good connection with the city proper. There are also fair accommodations to be had at the present time, as there is only a large hotel located on the corner of Alberta Avenue and 10th Street, the rooms being modern in every way. Located at the corner of Alberta Avenue and 10th Street is a business block and there is also a fair restaurant with rooms in connection at the corner of Alberta Avenue and 10th Street, the rooms being modern in every way. EXPERTS ADVISE

SPENDING \$100,000

TO BORE GAS WELLS

Clapp and Huntley Recommend Starting Work on Four Wells Southwest of Vegreville

WOULD BORE TO DEPTH

OF AT LEAST 2000 FEET

Suggest Private Company Might Undertake to Deliver Gas at City Limits

Although Mayor Shortt was so busy yesterday on various matters, he found it impossible to prepare the promised summary of the gas report for publication, some further matter in the morning. The full summary is expected to be ready by Monday.

The experts, Messrs. Clapp and Huntley, as stated in delivery in the Bulletin Tuesday, are of the opinion that the most promising gas field in the city is the one located in the southwest of Vegreville.

The city should pay for the gas to be used at once in boring four wells, southeast of Vegreville, to a depth of 2,000 feet.

These wells, it is estimated, would be drilled to a depth of at least 2,000 feet, and the first well, if necessary, should be sunk to a depth of 2,500 feet.

The experts are confident that the gas to be used at once in boring four wells, southeast of Vegreville, to a depth of 2,000 feet.

INSANE MAN FELL

OVERBOARD AND IS

DEVoured BY SHARKS

FRANK SCENE WITNESSED FROM DOCKS OF CAMPANIA ON THURSDAY

London, Sept. 21.—A tragic scene was witnessed from the docks of the Campania, which arrived at Vancouver yesterday. On the third of the ship, a third class passenger, belonging to County Mayo, jumped overboard from the deck.

All the passengers were on deck at the time when a cry of "man overboard" was heard.

The Campania's engines were at once stopped and a boat rowed quickly to aid the drowning man.

The passengers, however, were horrified to see a number of sharks in the vicinity of the boat.

The boat was devoured, for by the time the boat had arrived at the spot where Pagan struck the water, there was no trace of him.

He lived he was insane. The stevedore proceeded after an hour's delay.

ONTARIO FARMERS ARE

USING ELECTRIC POWER

Hydro-Electric Power Being Utilized for Farming Purposes in Various Parts of Ontario and Quebec

Toronto, Sept. 21.—Ontario may be more or less behind the European countries in adopting electricity for farming purposes, but from statistics made by the Ontario Electric Power Commission, it is evident that the province is on the alert and is quickly picking up.

Several schemes are being carried out in Ontario in the vicinity of Berlin, Brantford, Windsor, and other places.

The Ontario Electric Power Commission is now operating a hydro-electric power plant at Brantford, which is being used for farming purposes.
